MAKES SENSE

# Encourage Happy Experiment

Established in 1958, IndoAsian is an Indian origin brand with a legacy of consumer trust. We are proud to be part of the Legrand Group. As industry pioneers, we were the first to produce 10kA breaking capacity MCBs and RCCBs in India, and continue to deliver high-quality products suited for every market. Designing more with less, and offering great value for money is at the heart of everything we do.

In the sphere of Occupational Health and Safety, IndoAsian has received the coveted ISO 45001:2018 certification by Bureau Veritas Certification, that is accredited by UKAS management system. This milestone is reflection of our commitment to providing a healthy and safe environment to protect employees and visitors from any work-related accidents or diseases.

We innovate so that our products make sense, without compromising on quality. Guided by this philosophy, we are pleased to extend our product portfolio with a new range of stylish and powerful Exhaust Fans & Axial Fan . Zosta Exhaust Fans and Axial Fan are specially engineered and built to perform silently for years and years. The body is built with light weight, but durable plastic, making it easy to clean and rust-free. The motor at its heart uses copper which is a good conductor and is also very strong, enabling it to spin at high speed without burning out.

We measure success when every consumer who experiences our products says "this makes sense".

Looks, performance  
or safety, everything  
about **Zosta** Exhaust  
is **FAN**tastic!

Indoasian offers you Zosta – its range of world-class exhaust fans that have been specially designed for India. They feature a sleek plastic cabinet with specially angled blades to maximise air flow with minimum noise. Available in 3 sizes, there's a Zosta Exhaust Fan that's perfectly complements your elegant living space.

## Smart Design

---

Zosta Fans feature intelligent design at work. They have back flaps that allow fresh air to flow in smoothly. These flaps shut automatically when the fan is not in use to keep rodents, insects and dust out.

SMART  
DESIGN

## Efficient Exhaust Fan

---

Our Zosta Fans are fitted with a long-life, powerful motors that move the air rapidly – sucking out the smoke, fumes and bad odor and replacing it with fresh, clean air.

Efficient  
Exhaust Fan

## **Rust Free Body**

To ensure many years of trouble-free service, Zosta Fans are designed with a break-resistant plastic body that never rusts or ever requires to be painted. It can be easily wiped clean with a damp cloth to keep it looking new!

RUST FREE  
BODY

LOW  
POWER

## **Low Power**

The fans are available in various blade configurations and fitted with High wattage motors making them very frugal with power consumption and very economically to operate.

## **Copper Motor**

Zosta Fans are equipped with copper motor that allows higher current carrying capacity, this helps to reduce the heat generated, and results in longer motor life.

COPPER  
MOTOR

## The Stamp Of Safety

---

Zosta Fans comply to stringent RoHS standards that ensures the proportion of hazardous content is limited to allowed limits.

This ensures the product is not harmful to the nature during the production or dispose. Allowing the customer to purchase a Zosta fan with complete peace of mind towards environment.

THE STAMP  
OF SAFETY

## Copper Motor

---

At the heart of an Axial Fan is the rugged, well-designed motor with high grade copper wire. These motors are capable of running for high durations because of the superior copper wiring that has higher current carrying capacity. As a result, considerably less heat is generating extending the life of the motor.

## LOW POWER

### Low Power

---

Axial Fans are available in two configurations – the fan with a 100mm blade span which is fitted with a 21 W motor & the fan with a 150mm blade span has a 25 W motor. Both these fans consume power frugally, making them economical to operate.

## Rust Free Body

---

Axial Exhaust Fans are durably built with a shatter-proof plastic body, that will never rust or require any painting. These low maintenance fans can be wiped clean with a damp cloth and will look as good as new.

RUST FREE  
BODY

## RoHS Compliant

---

Zosta Axial Fans rigorously follow the exacting RoHS standards that ensure that the fan is safe for use and is also environmentally friendly, both during production or when being disposed. With RoHS certification, one is assured that Axial Exhaust Fans contain a very low level of hazardous materials, well within the stipulated limits.
